

Your **Solar PV System & Energy Solution** expert
Consulting • Design • Manufacturing • Installation

**RENEWABLE ENERGY
(SOLAR PV SYSTEMS)**

At GINS we continue to provide full turnkey solutions for Solar PV systems. We design solar PV systems based on customer load requirements as well as taking into consideration the local environmental conditions.

GINS provides a comprehensive range of services from project management, site survey, system design, installation, testing & commissioning, training, equipment repairs and after-sales support.

Solar PV Systems

Please contact GINS for Free consultation on your Solar PV System requirement.

Herewith some project reference images for Stand alone, Hybrid and Grid Solar PV installations.

STANDALONE PV SYSTEMS

HYBRID PV SYSTEMS

GRID CONNECTED

GINS Solar System Solutions range from street lighting, traffic signals, centralized solar PV power station, solar genset power stations, BIPV, communication systems [VSAT, Repeater stations], aircraft warning lights, SCADA systems, rural electrification, clean water systems, water pumping systems and solar research stations.

Consult us today for all your Renewable Energy Solar PV systems.
